WE'RE YOUR PARTNER

Solar is a lifetime investment decision. That's why you need to make sure you go with the right company—and not all solar companies are created equal.

Solar Maintenance Pros is focused on becoming your partner. Rest easy knowing you have a solar provider you can rely on. We get you the best of everything. And it's all-in house for a hassle-free, quality solar experience.

**WE ARE FULLY COMMITTED TO
MAKING OUR CLIENT'S SOLAR
EXPERIENCE A SUCCESS.**

WE INSTALL IN-HOUSE

We install in-house to ensure top-tier workmanship quality is provided to all of our clients. A project manager will be assigned to you after signing, to keep you updated every step of the way.

WE ARE EXPERIENCED

In 2009, Solar Maintenance Pros was founded with the goal of educating local residents about the benefits of PV solar systems and the potential cost-savings. We wanted to help local homeowners affordably own their own systems to cover the rising cost of energy bills.

Our business is now the Central Valley's top-rated solar contractor, managing the largest fleet of solar technicians and vehicles. It is our goal to continue to improve the solar experience for all our customers through a combination of excellent customer service and innovation.

YEARS IN BUSINESS

A two-story house with a dark blue roof and light blue siding. The house has several windows, some of which are glowing with a warm orange light. On the roof, there are solar panels. Six yellow circular icons with blue outlines are connected to the house by yellow lines. The icons represent: a house (top left), a battery (middle left), an open window (top center), a flame (top right), solar panels (middle right), and a fan (bottom right).

WE LOOK AT THE TOTAL PICTURE

Don't limit your options—Solar Maintenance Pros carries the most product options for panels, inverters, batteries and even energy efficiency upgrades! When you meet with one of our solar sales professionals, they will make a

recommendation for you based on your total home's energy needs. Save more by tackling your home's biggest projects in combination with your solar installation. We can help build you a customized plan to save energy and money for a lifetime.

WE HAVE THE MOST REVIEWS

"The folks at Solar Maintenance Pros are always responsive to my questions. Great company to work with!"

OUR TEAM CAN DO IT ALL

PANEL CLEANING

Clear panels of dirt and debris to boost solar efficiency.

**WE HAVE TRAINED
TECHNICIANS THAT
CAN TACKLE ANY JOB.**

HUMAN MONITORING

Our software catches solar production issues quickly to get you back on track.

VISUAL INSPECTION

A tech will ensure there are no issues with the system's critical components.

WE ENSURE YOUR ENERGY SAVINGS

Know True-Up® is our revolutionary energy monitoring software that helps our team make sure you minimize your annual solar True-Up bill.

- 1 **TRUE-UP ESTIMATOR**
- 2 **SYSTEM FAILURE ALERTS**
- 3 **ENERGY USAGE METERS**
- 4 **WEATHER TRACKING**

WE FIX SOLAR ISSUES QUICKLY

Our team of field technicians are licensed to install solar, so they know what components to check and what issues to look for. After every site visit, your service technician will leave a detailed report noting any issues with a plan to fix them.

**DIRTY SOLAR
PANELS CAN
DECREASE YOUR
PRODUCTION AS
MUCH AS 35%**

Solar Maintenance Pros includes a free professional panel cleaning every year to our customers.

PROFESSIONAL PANEL CLEANING CHECKLIST

- Only Deionized Water Used
- Trained Technicians on Every Job
- Eco-Friendly Cleaning Solution
- Visual Inspection of Solar Components

A SOLAR SUCCESS STORY

The team at Solar Maintenance Pros was great! They sat with us and explained everything. We feel so comfortable and confident with our solar.

**EDWARD & KATHY
QUAN**

After going solar with another company, Ed and his wife were still experiencing a high True-Up at the end of the year. The size of their family had grown, and their energy needs had changed over the years. We were able to add a roof-mounted system to offset their increased annual utility usage.
